

A slimmer solution.

A better choice
all-around.

CALIENTÉ
HEATING

CALIENTÉ PRICE AND PERFORMANCE FOR OUTDOOR ENCLOSURES

The SlimFit forced convection heaters—smarter design, better performance, and easy to use. Now that's pretty cool!

You asked for a heater that would fit in tighter spaces and Calienté delivers again with one of the lowest profile blower heaters on the market. Measuring in at 1.73 inches (44mm), the SlimFit PTC heater delivers 600W of power in a very tidy footprint.

BENEFITS:

- **Self Regulating PTC Technology** resistance increases as temperature increases, lower current draw and heater power
- **Versatility** – ideal for cold starts/proper function of sensitive electronics and anti-condensation
- **Ease of Installation** – fan and heater are pre-wired, easy installation with mounting clip
- **SlimFit Design** – for tight spaces (<1.75 inches)
- **Overall Value** – cost effective heating for small to mid-sized cabinets, enclosures, and related hardware
- **NEW: Built in Thermostats** – for energy efficiency

Technical Specifications

As temperature decreases, the blower heater energizes and brings any enclosure back to the set temperature.

SLIMFIT FORCED CONVECTION BLOWER HEATER

| Dimensions | Input voltage | Watts |
|---|---------------|-------|
| 216 MM x 124 MM x 44 MM 8.5 in x 4.88 in x 1.73 in | 120V or 240V | 600W |
